

## Emergency Referrals to Adult ENT

### Centralised Adult ENT Receiving Unit Ward 11b Queen Elizabeth University Hospital

- ENT emergency interventions are best provided in the specialised Treatment rooms or theatre at QEUH.
- For ENT emergencies, delayed transfer to QEUH may compromise care and delay access to specialist teams and equipment.
- Early discussion with ENT team by ED colleagues to facilitate transfer is established position.
- Principle should be to stabilise and transfer urgently to QEUH

\*Paediatric service is provided separately by RHC colleagues (up to 16)
