Mental health assessment units (MHAU)

GG&C are setting up 2 MHAU's in the city. They will be at Leverndale and Stobhill Hospitals.

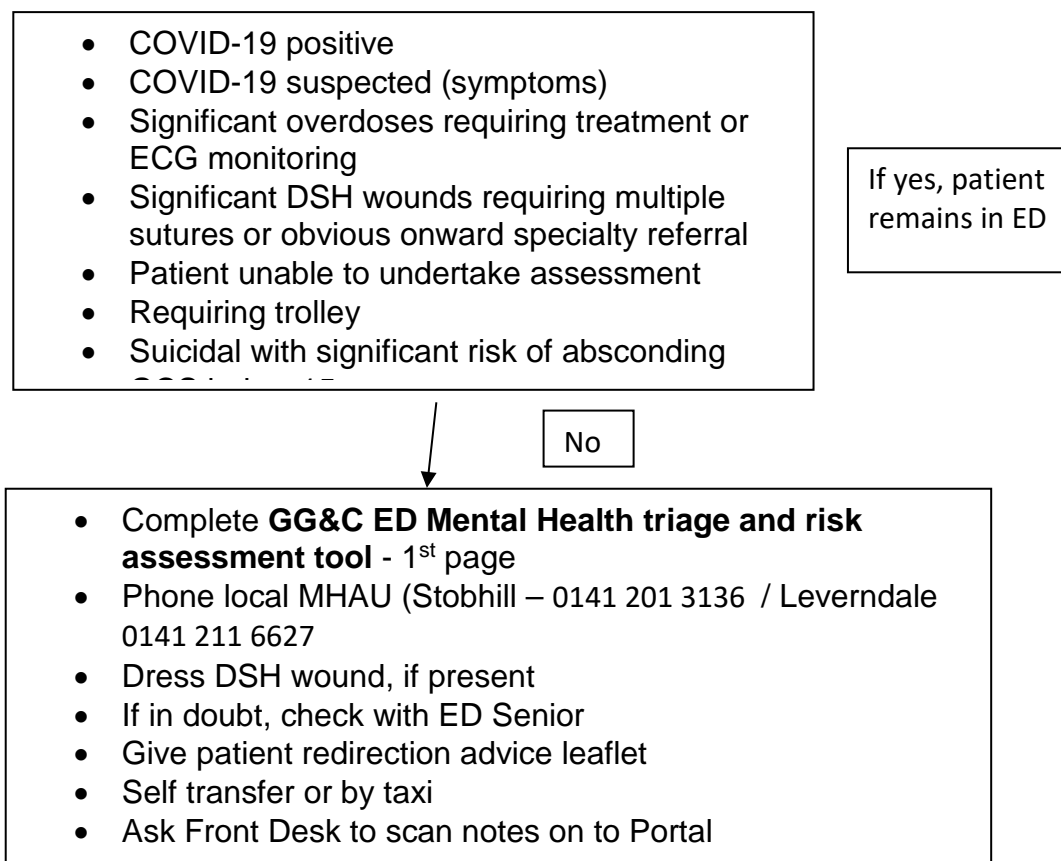

Patients will go there from the following sources:-

- Scottish Ambulance Service
- Police Scotland
- Redirection of walk-ins from QEUH, RAH and GRI EDs.

Normal CPN service to ED's will resume but response time may be longer as some of these staff will be manning the MHAU's.

Consultant psychiatry support also available via local switchboard

Pathway

PATIENT REDIRECTION LEAFLET TO ADULT MENTAL HEALTH ASSESSMENT UNITS (AMHAU)

During the COVID pandemic we have temporarily changed the location where many patients with a mental health problem are assessed and treated. This will allow you to be seen in the safest environment possible.

Today you have attended an Emergency Department with a mental health problem. The triage nurse has assessed you and you are well enough to be treated at Adult Mental Health Assessment Unit (AMHAU).

You are to attend (triage nurse to circle)

LEVERNDALE AMHAU
The MacLeod Suite
510 Crookston Road
G53 7TU
