**Advice regarding Outpatient Follow-up following attendance with a fracture (broken bone)**

Your injury has been assessed and treated by the Emergency (A&E) Department Staff

Your injury and X-rays will be reviewed by an Orthopaedic Consultant (a doctor who specialises in fractures)

You will be contacted by phone the following day to confirm a plan of management and provide further information – even if no follow-up is thought to be required.

Any information will be confirmed in a subsequent letter

Should you have any worries and concerns following discharge from hospital please contact :

NHS Greater Glasgow and Clyde is committed to teaching, training, and research to support the development of health and healthcare in our community. Healthcare students may observe consultations for this purpose. Please tell us if you do not want students to observe. We may also ask you if you would like to be involved in our research. We are currently running a study to investigate patients who have a cast or boot applied. We may contact you by telephone to discuss whether you would be interested in taking part. If you do not wish to be contacted, please tell the hospital doctor or nurse.
